Item 4 – Advisory Services

A. Firm Information

Maya Advisors, Inc. (“Maya Advisors” or the “Advisor”) is a registered investment advisor with the U.S. Securities and Exchange Commission (“SEC”). The Advisor is organized as a Corporation under the laws of California. Maya Advisors is owned and operated by Lavina Nagar, CFP® (President, Chief Executive Officer and Chief Compliance Officer). This Disclosure Brochure provides information regarding the qualifications, business practices, and the advisory services provided by Maya Advisors.

B. Advisory Services Offered

Maya Advisors offers investment advisory and financial planning services to individuals, high net worth individuals, and charitable organizations (each referred to as a “Client”).

The Advisor serves as a fiduciary to Clients, as defined under the applicable laws and regulations. As a fiduciary, the Advisor upholds a duty of loyalty, fairness and good faith towards each Client and seeks to mitigate potential conflicts of interest. Maya Advisors’ fiduciary commitment is further described in the Advisor’s Code of Ethics. For more information regarding the Code of Ethics, please see Item 11 – Code of Ethics, Participation or Interest in Client Transactions and Personal Trading.

The Advisor offers the following services:

- Investment/Portfolio Management
- Client Managed Portfolio
- Financial Planning

The scope of each service is defined below:

Investment/Portfolio Management Services

Maya Advisors provides customized investment advisory solutions for its Clients. This is achieved through continuous personal Client contact and interaction while providing discretionary and non-discretionary investment management and related advisory services. Maya Advisors works closely with each Client to identify the Client’s investment goals and objectives as well as risk tolerance and financial situation in order to create a portfolio strategy. Maya Advisors will then construct an investment portfolio, consisting of low-cost, diversified mutual funds and/or exchange-traded funds (“ETFs”) to achieve the Client’s investment goals. The Advisor may retain other types of investments from the Client’s legacy portfolio due to fit with the overall portfolio strategy, tax-related reasons, or other reasons as identified between the Advisor and the Client.

Maya Advisors will select, recommend and/or retain mutual funds on a fund by fund basis. Due to specific custodial and/or mutual fund company constraints, material tax consideration, and/or systematic investment plans, Maya Advisors will select, recommend and/or retain a mutual fund share classes that do not have trading costs when possible. These will in most cases be institutional share classes but in some cases may be share classes with higher internal expense ratios than institutional share classes. Maya Advisors will seek to select the lowest cost share class available that is in the best interest of each Client weighing the expected investment pattern, expense ratios and potential ticket charges, and will ensure the selection aligns with the Client’s financial objectives and stated investment guidelines.

Maya Advisors’ investment approach is primarily long-term focused, but the Advisor may buy, sell or re-allocate positions that have been held for less than one year to meet the objectives of the Client or due to market conditions. Maya Advisors will construct, implement and monitor the portfolio to ensure it reflects the goals, objectives, circumstances, and risk tolerance agreed to by the Client. Each Client will have the opportunity to place reasonable restrictions on the types of investments to be held in their respective portfolio, subject to acceptance by the Advisor.

Maya Advisors evaluates and selects investments for inclusion in Client portfolios only after applying its internal due diligence process. It may recommend, on occasion, redistributing investment allocations to diversify the

portfolio. Maya Advisors may recommend specific positions to increase sector or asset class weightings. The Advisor may recommend employing cash positions as a possible hedge against market movement. Maya Advisors may recommend selling positions for reasons that include, but are not limited to, harvesting capital gains or losses, business or sector risk exposure to a specific security or class of securities, overvaluation or overweighting of the position[s] in the portfolio, change in risk tolerance of the Client, generating cash to meet Client needs, or any risk deemed unacceptable for the Client's risk tolerance.

Donor Advised Fund Services – The Advisor also provides the Schwab Charitable Donor Advised Fund (“DAF”) to Clients via Schwab Charitable, a web-based interface and administrative solution for charitable giving to philanthropic vehicles via the Schwab Charitable Fund (“SCF”), an IRS approved philanthropic vehicle established for the purpose of managing charitable donations contributed by or on behalf of donor clients. The DAF allows the Advisor to actively manage assets that have been donated to and are owned by SCF, while charging an investment management fee. The Advisor's DAF participation is in conjunction with approval by the SCF Investment Committee for the Advisor to operate as an advisory manager on the platform. The Schwab Charitable Fund is an independent company and unaffiliated with the Advisor.

At no time will Maya Advisors accept or maintain custody of a Client's funds or securities, except for the limited authority as outlined in Item 15 – Custody. All Client assets will be managed within their designated account[s] at the Custodian, pursuant to the Client investment advisory agreement, please see Item 12 – Brokerage Practices.

Retirement Accounts – When deemed to be in the Client's best interest, the Advisor will recommend that a Client take a distribution from an ERISA sponsored plan or to roll over the assets to an Individual Retirement Accounts (“IRAs”), or recommend a similar transaction including rollovers from one ERISA sponsored Plan to another, one IRA to another IRA, or from one type of account to another account (e.g. commission-based account to fee-based account). In such instances, the Advisor will serve as an investment fiduciary as that term is defined under The Employee Retirement Income Security Act of 1974 (“ERISA”) and/or the Internal Revenue Code (“IRC”), as applicable, which are laws governing retirement accounts. Such a recommendation creates a conflict of interest if the Advisor will earn a new (or increase its current) advisory fee as a result of the transaction. No client is under any obligation to roll over a retirement account to an account managed by the Advisor.

Client Managed Portfolio Service

Client Managed Portfolio service is for self-directed investors who would like to manage their portfolios under professional discipline and guidance. This service is best suited for Clients who have a high level of investment discipline, long-term investment focus, and expertise in Excel, online trading, and investment recordkeeping. This service is based on passive investment strategies and is provided on a non-discretionary basis.

Maya Advisors works closely with each Client to identify the Client's investment goals and objectives as well as risk tolerance and financial situation in order to create a portfolio strategy. Maya Advisors will then construct a portfolio, based either on index mutual funds or exchange-traded funds (“ETFs”), based on client choice. Clients can also create portfolios based on Dimensional Funds. Maya Advisors meets with the Client twice a year to review any changes to the Client's personal situation and to assist with rebalancing the Client's portfolio. Maya Advisors will provide the Client with instructions on how to rebalance the account[s]. However, the account[s] are managed on a non-discretionary basis and the responsibility of executing the trades is on the Client.

Financial Planning Services

Maya Advisors will typically provide a variety of financial planning and consulting services to Clients as a stand-alone service or on an ongoing basis, pursuant to a written agreement. Services are offered in several areas of a Client's financial situation, depending on their goals, and objectives.

Generally, such financial planning services involve preparing a formal financial plan or rendering a specific financial consultation based on the Client's financial goals and objectives. This planning or consulting may encompass one or more areas of need, including but not limited to, investment planning, retirement planning, tax planning, cash-flow analysis, risk review, personal savings, education savings and other areas of a Client's financial situation.

A financial plan developed for or financial consultation rendered to the Client will usually include general recommendations for a course of activity or specific actions to be taken by the Client. For example, recommendations may be made that the Client start or revise their investment programs, commence or alter retirement savings, establish education savings and charitable giving programs.

Maya Advisors may also refer Clients to an accountant, attorney or other specialists, as appropriate for their unique situation. The Advisor will always provide a written summary of Client's financial situation, observations, and recommendations. It is not Maya Advisors practice to provide oral recommendation. Plans or consultations are typically completed within six months of contract date, assuming all information and documents requested are provided promptly.

Financial planning and consulting recommendations pose a conflict between the interests of the Advisor and the interests of the Client. For example, the Advisor has an incentive to recommend that Clients engage the Advisor for investment management services or to increase the level of investment assets with the Advisor, as it would increase the amount of advisory fees paid to the Advisor. Clients are not obligated to implement any recommendations made by the Advisor or maintain an ongoing relationship with the Advisor. If the Client elects to act on any of the recommendations made by the Advisor, the Client is under no obligation to implement the transaction through the Advisor.

C. Client Account Management

In engaging Maya Advisors to provide investment advisory services, each Client is required to enter into one or more agreements with the Advisor that define the terms, conditions, authority and responsibilities of the Advisor and the Client. These services may include:

- Establishing an Investment Strategy – Maya Advisors, in connection with the Client, will develop a strategy that seeks to achieve the Client's investment goals and objectives.
- Asset Allocation – Maya Advisors will develop a strategic asset allocation that is targeted to meet the investment objectives, time horizon, financial situation and tolerance for risk for each Client.
- Portfolio Construction – Maya Advisors will develop a portfolio for the Client that is intended to meet the stated goals and objectives of the Client.
- Investment Management and Supervision – Maya Advisors will provide investment management and ongoing oversight of the Client's investment portfolio.

B. Fee Billing

Investment/Portfolio Management and Client Managed Portfolio Services

Advisory fees are calculated by the Advisor or its delegate and deducted from the Client's account[s] at the Custodian. The Advisor or its delegate shall send an invoice to the Custodian indicating the amount of the fees to be deducted from the Client's account[s] at the end of each respective quarter. Fees are calculated based either on the statement provided by the custodian or on the quarter-end security valuations as provided by the Advisor's portfolio management system, based off the data provided by the Client's designated Custodian. Clients will be provided with a statement, at least quarterly, from the Custodian reflecting deduction of the investment advisory fee. It is the responsibility of the Client to verify the accuracy of these fees as listed on the Custodian's brokerage statement as the Custodian does not assume this responsibility. Clients provide written authorization permitting advisory fees to be deducted by Maya Advisors directly from their account[s] held by the Custodian as part of the investment advisory agreement and separate account forms provided by the Custodian.

Clients may also request to be billed by Maya Advisors directly. It will be the client's responsibility to verify the accuracy of the fee calculation and notify Maya Advisors of any discrepancy within 30 days of receiving the bill. Payment is due upon receipt of the invoice. Late payments will be charged a processing fee.

The balance shall be due upon completion of the agreed upon deliverable[s]. At no time shall deliverable[s] be completed more than six (6) months from the execution of the financial planning agreement.

C. Other Fees and Expenses

Clients may incur certain fees or charges imposed by third parties, other than Maya Advisors, in connection with investments made on behalf of the Client's account[s]. The Client is responsible for all custody and securities execution fees charged by the Custodian. The investment advisory fees charged by Maya Advisors are separate and distinct from these custody and execution fees.

In addition, all fees paid to Maya Advisors for investment advisory services are separate and distinct from the expenses charged by mutual funds and ETFs to their shareholders, if applicable. These fees and expenses are described in each fund's prospectus. These fees and expenses will generally be used to pay management fees for the funds, other fund expenses, account administration (e.g., custody, brokerage and account reporting), and a possible distribution fee. A Client may be able to invest in these products directly, without the services of Maya Advisors, but would not receive the services provided by Maya Advisors which are designed, among other things, to assist the Client in determining which products or services are most appropriate for each Client's financial situation and objectives. Accordingly, the Client should review both the fees charged by the fund[s] and the fees charged by Maya Advisors to fully understand the total fees to be paid. Please refer to Item 12 – Brokerage Practices for additional information.

Upon termination, the Client shall be billed for actual hours logged on the planning project times the contractual hourly rate or in the case of a fixed fee engagement, the percentage of the engagement scope completed by the Advisor. The Advisor will refund any unearned, prepaid financial planning fees from the effective date of termination. The Client's financial planning agreement with the Advisor is non-transferable without the Client's prior consent.

Item 8 – Methods of Analysis, Investment Strategies and Risk of Loss

A. Methods of Analysis

Maya Advisors employs fundamental analysis in developing investment strategies for its Clients. Research and analysis from Maya Advisors are derived from numerous sources, including financial media companies, third-party research materials, Internet sources, and review of company activities, including annual reports, prospectuses, press releases and research prepared by others.

Maya Advisors, Inc.
1881 Page Mill Road, Palo Alto, CA 94304
Phone: 650.704.3074
www.mayaadvisors.com

Fundamental analysis utilizes economic and business indicators as investment selection criteria. These criteria are generally ratios and trends that may indicate the overall strength and financial viability of the entity being analyzed. While this type of analysis helps the Advisor in evaluating a potential investment, it does not guarantee that the investment will increase in value. Assets meeting the investment criteria utilized in the fundamental analysis may lose value and may have negative investment performance. The Advisor monitors these economic indicators to determine if adjustments to strategic allocations are appropriate. More details on the Advisor's review process are included below in Item 13 – Review of Accounts.

As noted above, Maya Advisors generally employs a long-term investment strategy for its Clients, as consistent with their financial goals. Maya Advisors will typically hold all or a portion of a security for more than a year, but may hold for shorter periods for the purpose of rebalancing a portfolio or meeting the cash needs of Clients. At times, Maya Advisors may also buy and sell positions that are more short-term in nature, depending on the goals of the Client and/or the fundamentals of the security, sector or asset class.

B. Risk of Loss

Investing in securities involves certain investment risks. Securities may fluctuate in value or lose value. Clients should be prepared to bear the potential risk of loss. Maya Advisors will assist Clients in determining an appropriate strategy based on their tolerance for risk and other factors noted above. However, there is no guarantee that a Client will meet their investment goals.

While the methods of analysis help the Advisor in evaluating a potential investment, it does not guarantee that the investment will increase in value. Assets meeting the investment criteria utilized in these methods of analysis may lose value and may have negative investment performance. The Advisor monitors these economic indicators to determine if adjustments to strategic allocations are appropriate. More details on the Advisor's review process are included below in Item 13 – Review of Accounts.

Each Client engagement will entail a review of the Client's investment goals, financial situation, time horizon, tolerance for risk and other factors to develop an appropriate strategy for managing a Client's account. Client participation in this process, including full and accurate disclosure of requested information, is essential for the analysis of a Client's account[s]. The Advisor shall rely on the financial and other information provided by the Client or their designees without the duty or obligation to validate the accuracy and completeness of the provided information. It is the responsibility of the Client to inform the Advisor of any changes in financial condition, goals or other factors that may affect this analysis.

The risks associated with a particular strategy are provided to each Client in advance of investing Client accounts. The Advisor will work with each Client to determine their tolerance for risk as part of the portfolio construction process.

Following are some of the risks associated with the Advisor's investment approach:

Market Risks

The value of a Client's holdings may fluctuate in response to events specific to companies or markets, as well as economic, political, or social events in the U.S. and abroad. This risk is linked to the performance of the overall financial markets.

ETF Risks

The performance of an ETF is subject to market risk, including the possible loss of principal. The price of the ETFs will fluctuate with the price of the underlying securities that make up the funds. In addition, ETFs have a trading risk based on the loss of cost efficiency if the ETFs are traded actively and a liquidity risk if the ETFs has a large bid-ask spread and low trading volume. The price of an ETF fluctuates based upon the market movements and may dissociate from the index being tracked by the ETF or the price of the underlying investments. An ETF purchased or sold at one point in the day may have a different price than the same ETF purchased or sold a short time later.

Mutual Fund Risks

The performance of a mutual fund is subject to market risk, including the possible loss of principal. The price of the mutual funds will fluctuate with the value of the underlying securities that make up the funds. The price of a mutual fund is typically set daily therefore a mutual fund purchased at one point in the day will typically have the same price as a mutual fund purchased later that same day.

Past performance is not a guarantee of future returns. Investing in securities and other investments involve a risk of loss that each Client should understand and be willing to bear. Clients are reminded to discuss these risks with the Advisor.

Item 9 – Disciplinary Information

There are no legal, regulatory or disciplinary events involving Maya Advisors or Ms. Nagar. Maya Advisors values the trust Clients place in the Advisor. The Advisor encourages Clients to perform the requisite due diligence on any advisor or service provider that the Client engages. The backgrounds of the Advisor and its Advisory Persons are available on the Investment Adviser Public Disclosure website at www.adviserinfo.sec.gov by searching with the Advisor's firm name or CRD# 144325.

Item 10 – Other Financial Industry Activities and Affiliations

The sole business of Maya Advisors and Ms. Nagar is to provide investment advisory services to its Clients. Neither Maya Advisors nor its Advisory Persons are involved in other business endeavors. Maya Advisors does not maintain any affiliations with other firms, other than contracted service providers to assist with the servicing of its Client's accounts.

Item 11 – Code of Ethics, Participation or Interest in Client Transactions and Personal Trading

A. Code of Ethics

Maya Advisors has implemented a Code of Ethics (the "Code") that defines the Advisor's fiduciary commitment to each Client. This Code applies solely to Ms. Nagar ("Supervised Person"), as Maya Advisors is a single person firm. The Code was developed to provide general ethical guidelines and specific instructions regarding the Advisor's duties to you the Client. Maya Advisors and its Supervised Persons owe a duty of loyalty, fairness and good faith towards each Client. It is the obligation of Maya Advisors' Supervised Persons to adhere not only to the specific provisions of the Code, but also to the general principles that guide the Code. The Code covers a range of topics that address employee ethics and conflicts of interest. To request a copy of the Code, please contact the Advisor at 650.704.3074 or via email at advice@MayaAdvisors.com.

B. Personal Trading with Material Interest

Maya Advisors allows Supervised Persons to purchase or sell the same securities that may be recommended to and purchased on behalf of Clients. Maya Advisors does not act as principal in any transactions. In addition, the Advisor does not act as the general partner of a fund, or advise an investment company. Maya Advisors does not have a material interest in any securities traded in Client accounts.

C. Personal Trading in Same Securities as Clients

Maya Advisors allows Supervised Persons to purchase or sell the same securities that may be recommended to and purchased on behalf of Clients. Owning the same securities that are recommended (purchase or sell) to Clients presents a conflict of interest that, as fiduciaries, must be disclosed to Clients and mitigated through policies and procedures. As noted above, the Advisor has adopted the Code to address insider trading (material non-public information controls); gifts and entertainment; outside business activities and personal securities reporting. When trading for personal accounts, Supervised Persons have a conflict of interest if trading in the same securities. The fiduciary duty to act in the best interest of its Clients can be violated if personal trades are made with more advantageous terms than Client trades, or by trading based on material non-public information. This risk is mitigated by Maya Advisors by conducting a coordinated review of personal accounts and the accounts of the Clients. The Advisor has also adopted written policies and procedures to detect the misuse of material, non-public information.

D. Personal Trading at Same Time as Client

While Maya Advisors allows Supervised Persons to purchase or sell the same securities that may be recommended to and purchased on behalf of Clients, such trades are typically traded afterward. **At no time will Maya Advisors, or any Supervised Person of Maya Advisors, transact in any security to the detriment of any Client.**

Item 12 – Brokerage Practices

A. Recommendation of Custodian[s]

Maya Advisors does not have discretionary authority to select the broker-dealer/custodian for custody and execution services. The Client will engage the broker-dealer/custodian (herein the "Custodian") to safeguard Client assets and authorize Maya Advisors to direct trades to the Custodian as agreed upon in the investment advisory agreement. Further, Maya Advisors does not have the discretionary authority to negotiate commissions on behalf of Clients on a trade-by-trade basis.

Where Maya Advisors does not exercise discretion over the selection of the Custodian, it may recommend the Custodian[s] to Clients for custody and execution services. Clients are not obligated to use the recommended Custodian and will not incur any extra fee or cost from the Advisor associated with using a custodian not recommended by Maya Advisors. However, the Advisor may be limited in the services it can provide if the recommended Custodian is not engaged. Maya Advisors may recommend the Custodian based on criteria such as, but not limited to, reasonableness of commissions charged to the Client, services made available to the Client, its reputation and/or the location of the Custodian's offices. Maya Advisors will generally recommend that Clients establish their account[s] at Charles Schwab & Co., Inc. ("Schwab"), FINRA-registered broker-dealer and member SIPC. Schwab will serve as the Client's "qualified custodian". Maya Advisors maintains an institutional relationship with Schwab, whereby the Advisor receives economic benefits from the Custodian. Please see Item 14 below.

Following are additional details regarding the brokerage practices of the Advisor:

1. Soft Dollars - Soft dollars are revenue programs offered by broker-dealers/custodians whereby an advisor enters into an agreement to place security trades with a broker-dealer/custodian in exchange for research and other services. **Maya Advisors does not participate in soft dollar programs sponsored or offered by any broker-dealer/custodian. However, the Advisor does receive certain economic benefits from the Custodian. Please see Item 14 below.**

2. Brokerage Referrals - Maya Advisors does not receive any compensation from any third party in connection with the recommendation for establishing an account.

3. Directed Brokerage - All Clients are serviced on a "directed brokerage basis," where Maya Advisors will place trades within the established account[s] at the Custodian designated by the Client. Further, all Client accounts are traded within their respective account[s]. The Advisor will not engage in any principal transactions (i.e., trade of any security from or to the Advisor's own account) or cross transactions with other Client accounts (i.e., purchase of a security into one Client account from another Client's account[s]). Maya Advisors will not be obligated to select competitive bids on securities transactions and does not have an obligation to seek the lowest available transaction costs. These costs are determined by the designated Custodian.

B. Aggregating and Allocating Trades

The Advisor generally does not aggregate trades, where appropriate procedures have been adopted to ensure no Client is consistently advantaged or disadvantaged for any trades in a similar security. However, the Advisor retains the right to aggregate a trade where the primary objective in placing orders for the purchase and sale of securities for Client accounts is to obtain the most favorable net results taking into account such factors as 1) price, 2) size of the order, 3) difficulty of execution, 4) confidentiality and 5) skill required of the Custodian. Maya Advisors will execute its transactions through an unaffiliated broker-dealer selected by the Client.

Maya Advisors may aggregate orders in a block trade or trades when securities are purchased or sold through the Custodian for multiple (discretionary) accounts in the same trading day. If a block trade cannot be executed in full at the same price or time, the securities purchased or sold by the close of each business day must be allocated in a manner that is consistent with the initial pre-allocation or other written statement. This must be done in a way that does not consistently advantage or disadvantage any particular Client accounts.

Item 13 – Review of Accounts

A. Frequency of Reviews

Securities in Client accounts are monitored on a regular and continuous basis by Ms. Nagar, Chief Compliance Officer of Maya Advisors. Formal reviews are generally conducted at least annually or more or less frequently depending on the needs of the Client.

B. Causes for Reviews

In addition to the investment monitoring noted in Item 13.A., each Client account shall be reviewed at least annually. Reviews may be conducted more frequently at the Client's request. Accounts may be reviewed as a result of major changes in economic conditions, known changes in the Client's financial situation, and/or large deposits or withdrawals in the Client's account[s]. The Client is encouraged to notify Maya Advisors if changes occur in the Client's personal financial situation that might adversely affect the Client's investment plan. Additional reviews may be triggered by material market, economic or political events.

C. Review Reports

The Client will receive brokerage statements no less than quarterly from the Custodian. These brokerage statements are sent directly from the Custodian to the Client. The Client may also establish electronic access to the Custodian's website so that the Client may view these reports and their account activity. Client brokerage statements will include all positions, transactions and fees relating to the Client's account[s]. The Advisor may also provide Clients with periodic reports regarding their holdings, allocations, and performance.

Item 14 – Client Referrals and Other Compensation

A. Compensation Received by Maya Advisors

Maya Advisors is a fee only advisory firm that is compensated solely by its Clients and not from any investment product. Maya Advisors does not receive commissions or other compensation from product sponsors, broker-dealers or any un-related third party. Maya Advisors may refer Clients to various unaffiliated, non-advisory professionals (e.g. attorneys, accountants, estate planners) to provide certain financial services necessary to meet the goals of its Clients. Likewise, Maya Advisors may receive non-compensated referrals of new Clients from various third parties.

Participation in Institutional Advisor Platform – Schwab

Maya Advisors has established an institutional relationship with Schwab through its "Schwab Advisor Services" unit, a division of Schwab dedicated to serving independent advisory firms like Maya Advisors. As a registered investment advisor participating on the Schwab Advisor Services platform, Maya Advisors receives access to software and related support without cost because the Advisor renders investment management services to Clients that maintain assets at Schwab. Services provided by Schwab Advisor Services benefit the Advisor and many, but not all services provided by Schwab will benefit Clients. In fulfilling its duties to its Clients, the Advisor endeavors at all times to put the interests of its Clients first. Clients should be aware, however, that the receipt of economic benefits from a custodian creates a potential conflict of interest since these benefits may influence the Advisor's recommendation of this custodian over one that does not furnish similar software, systems support, or services.

Services that Benefit the Client – Schwab's institutional brokerage services include access to a broad range of investment products, execution of securities transactions, and custody of Client's funds and securities. Through Schwab, the Advisor may be able to access certain investments and asset classes that the Client would not be able to obtain directly or through other sources. Further, the Advisor may be able to invest in certain mutual funds

and other investments without having to adhere to investment minimums that might be required if the Client were to directly access the investments.

Services that May Indirectly Benefit the Client – Schwab provides participating advisors with access to technology, research, discounts and other services. In addition, the Advisor receives duplicate statements for Client accounts, trading tools, and back office support services as part of its relationship with Schwab. These services are intended to assist the Advisor in effectively managing accounts for its Clients, but may not directly benefit all Clients.

Services that May Only Benefit the Advisor – Schwab also offers other services to Maya Advisors that may not benefit the Client, including: educational conferences and events, consulting services and discounts for various service providers. Access to these services creates a financial incentive for the Advisor to recommend Schwab, which results in a potential conflict of interest. Maya Advisors believes, however, that the selection of Schwab as Custodian is in the best interests of its Clients.

B. Compensation for Client Referrals

The Advisor does not compensate, either directly or indirectly, any persons who are not supervised persons, for Client referrals.

Item 15 – Custody

The Advisor is authorized to deduct its fees from the Client's account[s] at the Custodian. The Client must place all assets with a "qualified custodian". The Client is required to engage the Custodian to retain all funds and securities and direct the Advisor to utilize that Custodian for security transactions in the account[s]. The Client should review statements provided by the Custodian, as the Custodian does not perform this review. For more information about custodians and brokerage practices, see Item 12 – Brokerage Practices.

Item 16 – Investment Discretion

Maya Advisors generally has discretion over the selection and amount of securities to be bought or sold in Client accounts without obtaining prior consent or approval from the Client. However, these purchases or sales may be subject to specified investment objectives, guidelines, or limitations previously set forth by the Client and agreed to by Maya Advisors. Discretionary authority will only be authorized upon full disclosure to the Client. The granting of such authority will be evidenced by the Client's execution of an investment advisory agreement containing all applicable limitations to such authority. All discretionary trades made by Maya Advisors will be in accordance with each Client's investment objectives and goals.

Item 17 – Voting Client Securities

Maya Advisors does not accept proxy-voting responsibility for any Client. Clients will receive proxy statements directly from the Custodian. The Advisor will assist in answering questions relating to proxies, however, the Client retains the sole responsibility for proxy decisions and voting.

Item 18 – Financial Information

Neither Maya Advisors, nor its management, have any adverse financial situations that would reasonably impair the ability of Maya Advisors to meet all obligations to its Clients. Neither Maya Advisors, nor any of its Advisory Persons, have been subject to a bankruptcy or financial compromise. Maya Advisors is not required to deliver a balance sheet along with this Disclosure Brochure as the Advisor does not collect advance fees of \$1,200 or more for services to be performed six months or more in advance.
